SUMMARY

Front-End Web Developer with experience in Graphic Design and recently earned Full Stack Web Development certificate from the University of Arizona. Skilled in HTML, CSS, JavaScript, Bootstrap and React with a focus on responsive web design and development. Passionate about designing eye catching user interfaces and creating engaging user experiences. Possessing strong values and work ethic strengthened by creativity, organization, teamwork and ability to work under pressure. Ready to leverage my skills in web development and visual design as part of a team driven to design and develop quality web experiences.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, jQuery, Bootstrap and React.js

Applications: VisualStudio Code, GitHub, Adobe Illustrator and Adobe Photoshop

EXPERIENCE

Account Manager | Acme Prints

Phoenix, AZ | 2017 – Present

Manage and maintain client accounts while handling and fulfilling orders in the production queue. Assist with visual design proofs for client approval and prepare press files for production. Provide product information and educate clients on industry processes best practices.

Graphic Designer | TumbleTees

Phoenix, AZ | 2015 – 2017

Head of single person graphic design department for non-profit screen printing company. Managed all aspects of the design process for every project including custom artwork, design & layout, art cleanup, file prepping, color separations and maintaining artwork library files. Produced print and digital marketing material for organization following company's brand guidelines.

PROJECTS

Casino S.H.I.C | <https://github.com/cchitla/casino-shic> | <https://casino-shic.herokuapp.com/>

- A casino based website with the popular games of craps, roulette, black jack and slots. The site allows users to engage with other players via chat in each game room, while earning points and playing to be a top ranked player.
- Created the graphics used throughout the site including logo design, collaborated in the user interface layout and created the slots game.
- React.js, CSS, Adobe Illustrator

Penny Pincher | <https://github.com/mawil583/Project-2> | <https://shielded-tor-95793.herokuapp.com/>

- A finance based web application that allows users to create monthly budgets and keep track of their money. Users are able to compare their budget to their expenses.
- Implemented Passport.js for user authentication and collaborated in creating a responsive front-end design.
- Javascript, Passport.js, CSS

EDUCATION

Full-Stack Web Development Certificate: University of Arizona, Gilbert, AZ

Associate's in Graphic Design: Northland Pioneer College, Show Low, AZ
